PROJECTS

Shoe e-commerce website
▫ Shoe e-commerce website here one can buy shoes with different categories like men, women, kids with variety of sizes and here we made a admin panel where the admin can add a product or delete the product and also update the product details.
▫ Using React JS, Mongo DB, Next JS, Express JS.

Hand gesture Recognition
▫ Real time hand gesture recognition where one can see the gesture made by a person. The gesture made by human will be recognized with the gesture name showing on the screen. I made it with a limited hand Gesture of 5 .
▫ Using Python

DECLARATION

I do hereby declare that the above information is true to the best of my knowledge. Finally I request the concerned authorities to provide me a chance, so that i can prove the best of my self. I shall ever be thankful and grateful to you.
